Giza, Egypt

OBJECTIVE

Aspiring data analyst with experience in data analysis, reporting, and visualization, aiming to apply proficiency in tools such as Excel, SQL, Python, and data visualization platforms to deliver actionable insights and improve organizational performance.

EDUCATION

Helwan University

Bachelor of Computer Science — Major: Information Systems | Grade: Excellent | June 2026

EXPERIENCE

Elements Business Development

June 2023 – September 2023 *Telemarketing Specialist (Cold Calling)*

- Conducted high-volume cold calls, effectively pitching products and generating qualified leads.
- Maintained detailed customer interaction records, achieving a 10% increase in lead conversion rates.
- Consistently met or exceeded weekly call targets (100+ calls/day) in a fast-paced environment.
- Developed strong communication, persuasion, and time-management skills under pressure.

Yalla Grow

E-Commerce Assistant

- Managed and updated product listings on the Shopify store, including adding new products, editing existing products, and removing inactive products.
- Maintained and cleaned product data using Excel, including formatting, matching SKUs, and correcting inconsistencies.
- Ensured product data accuracy and consistency across Shopify and internal Excel sheets.
- Organized products into appropriate categories, collections, and tags.

INTERNSHIPS

Digital Egypt Pioneers Initiative (DEPI)

December 2025 – July 2026 *Data Analysis — Power BI Specialist*

COURSES

Google Data Analytics Professional Certificate — Coursera | July 2023 – December 2023

- Applied the complete data analysis process (Ask, Prepare, Process, Analyze, Share, Act) to solve real-world business problems.
- Cleaned, organized, and analyzed data using Excel, SQL, and R to ensure accuracy and reliability.
- Created meaningful data visualizations and dashboards using Tableau to communicate insights clearly.
- Developed strong analytical thinking and data storytelling skills to support data-driven decision-making.

Associate Data Analyst (PostgreSQL) — DataCamp | 2025

- Queried, filtered, and analyzed datasets using PostgreSQL to extract actionable insights and support business decisions.
- Wrote optimized SQL queries including joins, subqueries, and aggregations to analyze large and complex datasets.

- Performed data validation, cleaning, and quality checks to ensure data accuracy and consistency.
- Collaborated with stakeholders to translate analytical findings into clear reports and data-driven recommendations.

TECHNICAL SKILLS

- Data cleaning, data validation, exploratory data analysis (EDA), trend and pattern identification
- Python
- PostgreSQL, SQL queries, joins, subqueries, aggregations
- Microsoft Excel
- Microsoft Power BI

LANGUAGES

Arabic (Native) · English (B2)

EXTRACURRICULAR ACTIVITIES

Data Analysis Committee Member, IEEE FCIH Student Branch, Helwan University February 2025 – September 2025

- Gained hands-on experience in data analysis and statistics.
- Learned and applied technologies such as Excel, SQL, and Python.
- Delivered educational sessions during TechVerse event, teaching Python and Excel basics.
- Strengthened teamwork and communication skills through collaborative projects.
